ACADEMIC SENATE for California Community Colleges
LEADERSHIP · EMPOWERMENT · VOICE

DISCIPLINE INPUT GROUP (DIG)

Discipline faculty come together at a regional DIG meeting to work on identifying core competencies and outcomes for the discipline. Faculty will draft C-ID course descriptors and Transfer Model Curricula (TMC).

FACULTY DISCIPLINE REVIEW GROUP (FDRG)

Faculty are appointed by their academic senate to serve on the statewide faculty review group that will complete the work on the TMC and descriptors drafted during the DIG meetings. Three faculty from each segment are needed to complete the FDRG. The FDRG then reviews and reconciles the DIG-developed draft TMC and prepares it for posting.

FINALIZATION

Once the vetting process is complete, the FDRG reviews the comments, and makes necessary edits. The FDRG Lead then prepares supporting documents and submits the TMC to the Intersegmental Curriculum Faculty Workgroup (ICFW) for review and approval.

STATEWIDE VETTING/REVISION

Drafts prepared by the FDRG are posted for statewide vetting and invitations to participate are sent to faculty via the ASCCC Listservs. California higher education faculty can then submit their comments and feedback using the survey sent out via ListServs. Faculty and other interested groups, such as Articulation Officers, can then submit their comments and feedback via the survey. The FDRG will review the feedback and determine whether revisions to the draft TMC and descriptors are needed. If revisions are made, an additional statewide vetting of the TMC will take place.

NOT APPROVED

If the finalized materials are not approved by the ICFW, they are sent back to the FDRG for further refinement.

APPROVED

If the finalized materials are approved, the TMC is posted on the C-ID website.

IMPLEMENTATION

- If the materials are approved, the CSU Chancellor's Office will send the TMC to CSU campuses for "determination of similar".

- The CCC Chancellor's Office (CCCCO) will develop a template, based on the FDRG developed TMC, to be used by colleges in submitting local Associate Degrees for Transfer (ADTs). CCCCO templates are posted on the CCCCO website on either February 1 or September 1.

- Discipline faculty from the CCC and CSU are appointed by their respective Academic Senate to review Course Outlines of Record that are submitted to the C-ID system. Once a course receives C-ID approval for a descriptor, it will articulate to any CCC that has C-ID approval for the same descriptor.

- CCCs can develop ADTs comprised of courses approved for C-ID descriptors and submit the ADT to the CCCCO for review and approval.
